

As easy as one-two-three make someone's day with a daisy!

All you need is a pair of scissors, some glue,
a couple of recycled ice cream sticks and a pen.

1. Cut out all the daisy parts from the main sheet of paper.

2. Using ONLY Part B, cut along the dotted lines.

3. You should now have 8 petals. Fold gently along the straight lines that run in-between each petal. The folded petals should look like the above.

4. Turn it over and flatten each segment to your liking.

5. Repeat Steps 2,3 & 4 for Part C.

6. Glue Part A on top of Part B to create the face of your daisy. Then take your recycled ice cream stick and glue it behind the centre of Part B.

7. Take Part C and glue it on top of the stick, behind Part B.

8. For the final layer, glue Part D on top of Part C. This is the back portion of your daisy and where you should write your kindness message.

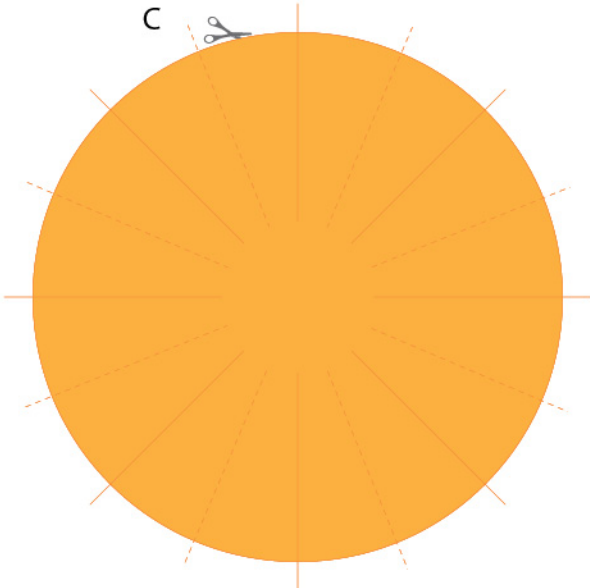

9. Finally, take Part E and fold the centre line as shown. Wrap this portion around the stick evenly so that the two tips of the leaves touch together once they are glued to the stem.

Now write a kindness message on your daisy and give it to someone you appreciate. Don't forget to deliver it with a smile!

E

Kindness message
